LEGUE DOHO THIERRY

STUDENT

PROFILE

Currently in the final year of my MSc in Data Science and Analytics at EPITA Paris, I am seeking an end-of-studies internship, ideally starting from February 2025. Passionate about data analysis, mathematics, and artificial intelligence, I am eager to join a dynamic team where I can contribute my technical skills while continuing to develop my expertise

PROFESSIONAL EXPERIENCE

 KELDEN UNIVERSITY INSTITUTE TEACHER AND SOFTWARE TESTER

10/10/2022 - 10/02/2024

- Prepared and taught courses in mathematical analysis, linear algebra, statistics, and computer science to first and second-year HND students
- PerformED user interface tests.
- I have basic knowledge of Agile and Waterfall models and conduct system and integration tests.

MAVIANCE GMBH SOFTWARE ENGINEER INTERN

14/08/2020 - 20/04/2021

 Participation in the requirements gathering, analysis, and design of an online platform for the promotion and sale of aquatic products in Cameroon.
